DETAILED ACTION

Allowable Subject Matter

Claims 1-7 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art does not disclose a speaker damper comprising a damper casing wherein a metallic whisker is intermittently penetrated through the damper casing between surfaces and having intermittent air spaces between the whisker and the damper casing, and a fastening string attaching the whisker at the air space location.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The patent to Nakazono discloses the use of "penetrating" a whisker through a speaker damper. Nakazono does not disclose the use of a fastening string attaching the whisker at the air space locations.
